DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2013-0450]

Drawbridge Operation Regulation; Tombigbee River, AL

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the regulation governing the operation of the Norfolk Southern (NS) Railroad vertical lift drawbridge across the Tombigbee River, mile 44.9, near Jackson, between Washington and Clarke Counties, Alabama. The deviation is necessary for emergency replacement of the counter weights and operation cables. This deviation allows the bridge to remain closed to navigation for two 72-hour closures and an additional 12-hour closure all over a 12-day period.

DATES: This deviation is effective from 7 a.m. on Monday July 8, 2013 through 7 p.m. Friday July 19, 2013.

ADDRESSES: The docket for this deviation, [USCG-2013-0450] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with

this deviation. You may also visit the Docket Management Facility in Room W12-140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or e-mail Jim Wetherington, Bridge Branch Office, Coast Guard; telephone 504-671-2128, e-mail james.r.wetherington@uscg.mil. If you have questions on viewing the docket, call Barbara Hairston, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: The NS Railroad has requested a temporary deviation from the operating schedule for the vertical lift drawbridge across the Tombigbee River, mile 44.9, near Jackson, between Washington and Clarke Counties, Alabama. The bridge has a vertical clearance of 8 feet above ordinary high water at an elevation 24.9 ft (NGVD 29) in the closed-to-navigation position. Vessels requiring a clearance of less than 8 feet above ordinary high water may transit beneath the bridge during maintenance operations.

In accordance with Title 33 CFR 117.5, the bridge must open promptly and fully for the passage of vessels when requested or signaled to open. This deviation will allow

the bridge to remain closed to marine traffic from 7 a.m. on Monday July 8, 2013 through 7 a.m. on Thursday July 11, 2013. A second 72 hour closure is scheduled from 7 a.m. on Monday July 15, 2013 through 7 a.m. on Thursday July 18, 2013. Finally, an additional 12 hour closure is scheduled from 7 a.m. through 7 p.m. on Friday July 19, 2013. At all other times, the bridge will operate in accordance with Title 33 CFR 117.5.

The closure is necessary for the replacement of worn counter weights and operation cables. They were discovered after a general maintenance inspection. This maintenance was then scheduled. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway consists of tugs with and without tows, commercial vessels, and recreational craft. Coordination between the Coast Guard and the waterway users determined that there should not be any significant effects on these vessels. The bridge will be unable to open during these repairs and no alternate route is available. If vessels can pass without an opening they may proceed with extreme caution.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: June 6, 2013

David M. Frank
Bridge Administrator
